

eagle[™]

LIGHT

Scientifically validated, early warning drowsiness detection system, designed to suit light vehicles.

The eagle ^{LIGHT} is the latest addition to the eagle product line by Optalert. The eagle ^{LIGHT} is a compact system, suited to smaller dashboards and cabins (light commercial vehicles, 4WD's, DualCabs, etc).

Combined with wireless glasses, it utilises Optalert's scientifically based early warning drowsiness detection technology.

eagle[™] LIGHT

- Small size: 150(L)x 73.5(W)x 16(D)mm
- Light weight: 230g
- Ruggedized design
- Easy installation (quick mount system)
- Fast system start-up / shutdown with vehicle ignition
- Cellular and WiFi comms
- Objective measure of drowsiness - patented Johns Drowsiness Scale (JDSTM) – scientifically validated in peer reviewed scientific publications

Optalert's eagle ^{LIGHT} is robust and reliable with a small form factor that makes it easy to install and connect.

Protecting drivers in the blink of an eye.
